

Stools of a Breastfed Baby

Day 1 - 2: Black Tarry Sticky
Meconium

Day 3 = Brown Transition

Day 3 - 4 = Green or Yellow

Day 5 = Yellow Seedy

The breastfed baby's stool should change in color from black to yellow during the first 5 days after birth. The size of the stool should be larger than the size of a quarter.

Normal Yellow Watery Stool

Normal breastfed stools can look watery.
